A FORERUNNERS WELCOME

Assalamu 'alaikum wa rahmatullahi wa baraktuh,

May Allah's peace and blessings be upon you!

Thank you for your interest in The Forerunners Education. It brings us great joy to have people like you, who recognise the importance of seeking and providing an excellent education for their children that combines high standards of academic and Islamic education supplemented with both direct and indirect approaches to tarbiyah.

Our school's name was inspired by the verses of the forerunners in the Quran. The verses highlight the rewards of those that excel others in virtues, and love for truth and goodness.

The forerunners represent a group of people who are at the frontline of seeking and enacting excellence. The attributes of the forerunners are attributes that we strive to embody in our provision as a home school, and hope that over time we can inspire and empower our young people to embody as individuals.

We welcome students from diverse backgrounds, and can assure that they will be well cared for in different aspects of their lives, including mentally, spiritually, emotionally, and intellectually. This is as commitment from all our teachers that we hope is transmitted into our students and parents who join our family.

We hope that you find our website and complementary prospectus informative and that they give you a glimpse of what we stand for, and the values we hope to instil into our students.

ABOUT US

THE FORERUNNERS EDUCATION

وَالسَّابِقُونَ السَّابِقُونَ

And the forerunners, the forerunners

أُولَئِكَ الْمُقَرَّبُونَ

Those are the ones brought near [to Allāh]

فِي جَنَّةِ النَّعِيمِ

In the Gardens of Pleasure,

The Forerunners is an online homeschool founded with the commitment to encompass the verses of the forerunners in the Quran in everything we do, from our ethos to the services we provide.

We integrate personal, spiritual and character development into our teaching of the British National curriculum to offer a holistic, inclusive, and transformative learning experience for children to access from the comfort of their own homes or wherever they might be in the world.

Our strong focus on Islamic ethos and education will set your child up for success and prepare them for the challenges they may face on the way there. With the help of up to date technology, subject-specialist teachers and a well-rounded, engaging curriculum, your child will thrive and become a future leader of our community.

Our vision is to establish a global learning space for children to access worldwide. A learning space that is built upon the fundamentals of our faith so that what we learn is rooted in the etiquette of Islam, rather than Islam being inserted as an afterthought.

OUR VISION

At The Forerunners Education, we strive to cultivate the next generation of Muslim leaders who are not only knowledgeable and skilled but also deeply connected to their faith, carrying the light of Islam into every sphere of life.

We light the spark of our students' curiosity through timeless teachings from the Quran and sunnah which guide our teaching methods and the deep relationships we develop with our students.

Our holistic approach ensures that our students are both academically proficient and spiritually enriched. They emerge from our school as confident, resilient young leaders, empowered by their faith and equipped with a unique perspective that is deeply rooted in Islamic teachings.

Our Islam Centered Education

At The Forerunners Education, we don't believe that Islam is something that gets incorporated into our learning. Islam is at the center of everything we do and is a foundation upon which every subject is taught. This is because, at The Forerunners Education, we believe that education is not just about acquiring knowledge to attain certification, but about understanding the world through the lens of our faith.

Every subject, whether it's maths, English, science, or computing, is intricately linked to Islamic teachings, helping our students see the grandeur of our faith and the wisdom embedded in every aspect of life.

Islam is not just an addition to their education; it is the foundation upon which they build their understanding of the world, enabling them to contribute meaningfully to society with a strong sense of purpose and identity that sets them apart in any environment.
